- Contribute to best practice system and application design
- Promote leading practices and continuous improvement with TDD, CI/CD pipelines and effective release management strategies
- Provide technical support and promote a culture of continuous improvement and sharing knowledge

What We're Looking For

- Expertise in **API development using Ruby on Rails**
- Experience in Agile methodologies and project management tools (e.g., Jira, Azure DevOps)
- Experience in Heroku, AWS, or similar technologies is preferred
- Prior experience working within a software consultancy, delivering best in class solutions for clients
- A passion for technical leadership and quality
- A nice to have would be front end development expertise using one of our typically used technologies - React, Next.js, Typescript

Why Showoff?

At Showoff, we believe in creating a space where everyone can thrive. We're committed to building an inclusive, equal-opportunities workplace that reflects the diversity of the world we live in. In fact, we know that minority groups, including women in tech, often apply only if they feel they meet 90% of the criteria—but at Showoff, if you think you've got the skills for the job, we want to hear from you! Bring your unique perspective, creativity, and energy, and let's create something amazing together.

What's in It for You?

- The opportunity to work with a talented, passionate, and fully remote team
- A culture that values work-life balance, innovation, and continuous learning
- Competitive salary and benefits package
- The chance to contribute to exciting projects and grow in your career

The small print:

Showoff will only consider applicants who currently have the right to live and work in Ireland either through EU citizenship or on a current and renewable Stamp 4 visa
